

Variable Name	Description	Data Type	Values		Missing
				Source	Values
year	The year the withdrawal was made.	Integer	2017	Spar Nord	None
month	The month the withdrawal was made.	text	January : December	Spar Nord	None
day	The day of month the withdrawal was made.	Integer	1:31	Spar Nord	None
weekday	The day of the week the withdrawal was made.	text	Sunday : Saturday	Spar Nord	None
hour	The hour of day the withdrawal was made.	Integer	1:24	Spar Nord	None
atm_status	Is the atm still in service or has it been closed permanently	text	Active Inactive	Spar Nord	None
atm_id	An arbitrary unique ID number for each ATM	text	1:113	Spar Nord	None
atm_manuf acturer	The manufacturer of the ATM	factor	NCR Diebold Nixdorf	Spar Nord	None
atm_locati on	A text string describing the location of the atm, typically a city. If the string contains "Intern", the atm is located inside a Spar Nord branch and can only be used within opening hours	text	113 unique strings	Spar Nord	None
atm_street name	The streetname of the street where the atm is located	text	83 unique strings	Spar Nord	None
atm_street _number	The streetnumber where the atm is located	integer	1:452	Spar Nord	None
atm_zipcod e	The zipcode where the atm is located	integer	1550 : 9990	Spar Nord	None
atm_lat	Latitude of the atm location, coordinates are WGS84	numeric	55.06 : 57.72	www.dawa.aws .dk - Styrelsen for Dataforsyning og Effektivisering (SDFE) and Google	None

atm lan	Longitude of the atm location, coordinates are WGS84	numeric	8.408 : 12.612	www.dawa.aws .dk - Styrelsen for Dataforsyning og Effektivisering (SDFE) and Google	None
atm_lon			DAN JEHID JODDINED	-	
currency	Currency of the withdrawal	text	DKK EUR GBP USD	Spar Nord	None
	The type of card that was used in the withdrawal. If it ends with the string "- on-us" it means it is a card issued by Spar Nord and hence, a Spar		12 unique strings		
card_type	Nord customer.	text		Spar Nord	None
	The amount of money		0 : 10000	Random Function Generation for Analysis	
_amount	processed in the transaction	integer		purpose	None
service	The atm service used. Some atms allow deposits, but deposits are stripped from the data, so only withdrawals are included.	text	Withdrawal	Spar Nord	None
message_c	Error codes. Missing value means the withdrawal was made without error.	text		Spar Nord	Yes
message_t	Error text message corresponding to an error code. Missing value means the withdrawal was made without error.	text		Spar Nord	Yes
weather_la	Longitude of the weather measurement location, coordinates are WGS84. Weather data is joined to the atm data by the cartesian minimum distance between the atm lat, lon and the		8.450 : 12.614	https://openwe	
t	location of the weather	numeric		athermap.org/	None

	measurement may not be the				
	same city as the atm location.				
	Latitude of the weather				
	measurement location,				
	coordinates are WGS84.				
	Weather data is joined to the				
	atm data by the cartesian				
	minimum distance between		55.06 : 57.72		
	the atm lat, lon and the				
	weather lat, lon. Hence, the				
	location of the weather				
weather_lo	measurement may not be the			https://openwe	
า	same city as the atm location.	numeric		athermap.org/	None
weather_ci	The city id of the city where			https://openwe	
ty_id	the measurement was taken	Integer		athermap.org/	None
weather_ci	The name of the city where		F2	https://openwe	
ty_name	the measurement was taken	text	53 unique strings	athermap.org/	None
	Temperature at the moment				
	of measurement within the		260.0 : 302.1		
	hour. The temperature is			https://openwe	
temp	provided only in Kelvins	numeric		athermap.org/	None
	Atmospheric pressure (on the		974 : 1057	https://openwe	
pressure	sea level), hPa	Integer	974:1057	athermap.org/	None
humidity		Integer	0:174	https://openwe	
	Humidity, %			athermap.org/	None
wind_spee	Wind speed. Unit Default:		0:77	https://openwe	
d	meter/sec	Integer		athermap.org/	None
	Wind direction, degrees		0:360	https://openwe	
wind_deg	(meteorological)	Integer		athermap.org/	None
	Rain volume for the last 3		0.1 : 25.4	https://openwe	
rain_3h	hours	numeric		athermap.org/	Yes
			0:100	https://openwe	
clouds_all	Cloudiness, %	Integer	0.100	athermap.org/	None
				https://openwe	
weather_id	Weather condition id	Integer		athermap.org/	None
			Clear Clouds Drizzle		
			Fog Haze Mist		
			Rain Snow		
weather_m	Group of weather parameters		Thunderstorm	https://openwe	
ain	(Rain, Snow, Extreme etc.)	text	TORNADO	athermap.org/	None
weather_d	Weather condition within the		32 unique strings	https://openwe	
escription	group	text	32 unique sunigs	athermap.org/	None
